Inside This Guide

01 **Admin Guide**
Managing the whole platform: events, tickets, payments, users and clients.

02 **Client Guide**
For organizers: onboarding, publishing events, ticket tiers, door scanning, media and payouts.

03 **Users & Customers**
Account setup, discovering events, booking and paying, tickets, reminders and favorites.

04 **Support & Contact**
Where to get help when you need it, plus tips from the Eventra team.

Getting Started — Everyone

1 **Create your free account**

Click Sign Up on the homepage, enter your full name, email, phone number and a strong password (at least 8 characters mixing letters, numbers and symbols).

- Prefer a one-tap option? Continue with Google signs you in securely with your Gmail account.

2 **Verify your email with the OTP code**

Eventra sends a 6-digit One-Time Password to your inbox. Type it into the verification screen within 10 minutes; use the Resend link if it expires.

3 **Complete your profile**

Open your profile from the avatar menu and fill in gender, date of birth, country, state, city and address. A complete profile unlocks email + SMS event reminders and makes checkout faster.

4 **Sign in any time**

Use your email and password, or Google. Sessions stay active on your device until you log out from the avatar menu.

Admin Guide — Platform Control

Your dashboard at a glance

- Live counters for total events, active users, active clients, unverified accounts and platform revenue.
- A 7-day performance chart tracking events created, tickets sold and users registered.
- The Recent Activities feed logs every login, OTP event and security-relevant action with timestamps.
- Active Users and Active Clients panels show who is online right now, with one-click Manage links.
- The Upcoming Events rail previews the next events with cover photos.

Managing events

1. **Open Events from the sidebar**

   The grid lists every event on the platform with organizer, date, venue, category and status. Use the search field to filter by title or organizer instantly.

2. **Review or edit any event**

   Open an event to check cover image, description, ticket types and prices. Admins can correct details and unpublish events that break the content rules.

3. **Create an event on behalf of a client (optional)**

   Use Create Event to publish for an organizer who needs help: choose the client, upload a cover image, set the venue, date, time, categories and pricing, then save.

4. **Monitor status badges**

   Upcoming events show a live badge; passed events dim automatically. Failed-payment bookings appear so you can help the buyer retry.

Admin Guide — Tickets, Payments & People

Tickets & validation

- Every issued ticket carries a unique code (TKT-YYYYMMDD-XXXX) and a QR code for door scanning.
- The Tickets page lists sales per event with buyer name, type, quantity and payment status.
- Download any ticket as PDF, or resend the confirmation email with the QR attached.
- Cancelled tickets are flagged automatically and their QR codes stop scanning.

Payments & payouts

1. **Review the Payments ledger**

   Each row shows reference, event, buyer, amount, gateway response and status. Use it to reconcile Paystack settlements against ticket sales.

2. **Understand the platform commission**

   When clients charge on the platform account, the platform share is split automatically through Paystack subaccounts - no manual invoicing needed.

3. **Export for accounting**

   Use the export action to download a CSV snapshot for your bookkeeper.

Users & clients

- The Users page manages customer accounts - search, verify identity flags and deactivate abusive accounts.
- The Clients page manages organizer companies, approval status and the platform commission percent.
- All security events (logins, OTP verifications, failed passwords) appear in Recent Activities.

Admin daily checklist

- Scan Recent Activities for suspicious logins.
- Check upcoming events for missing details or images.
- Reconcile yesterday's payments against Paystack.
- Respond to client support requests from the Clients page.

Client Guide — Organizers & Partners

Becoming a client (organizer onboarding)

1. **Request a partner account**

   From the homepage footer choose Become a Client and submit your company details, or contact the Eventra team directly.

2. **Receive your credentials + OTP**

   The team creates your company account and sends login details. First sign-in asks for a One-Time Password sent to your registered email.

3. **Complete your company profile**

   Add your business name, description, contact information and logo. Clients with verified badges get noticeably more ticket sales.

4. **Sign in to your dashboard**

   Your dashboard shows ticket sales, revenue, upcoming events and attendee counts at a glance.

Publishing an event

1. **Go to Events and click Create Event**

2. **Describe the experience**

   Write a clear title, an exciting description, pick categories and tags, and upload a high-quality cover photo (landscape images look best).

3. **Set date, time and venue**

   Pick the event date and start time, then enter the venue address including city and state - state powers the Nearby events feed for local users.

4. **Configure tickets**

   Add Regular, VIP or Premium tiers with prices and quantities. Set 0 for a free event; paid events connect to secure Paystack checkout.

5. **Publish and share**

   Save and publish. Your event appears on the homepage instantly - copy the share link or QR code from the event page to promote it.

Client Guide — Sales, Doors & Media

Ticket types & pricing

- Multiple tiers let fans choose: Regular for access, VIP for perks, Premium for the full experience.
- You keep full control of prices and quantities; sold-out tiers close automatically.
- Buyers pay with card, bank transfer or USSD through Paystack; you never handle card data.

Event day — door scanning

1. **Open the Ticket Scanner**

   From the client dashboard open Scanner on your phone or a tablet at the entrance.

2. **Scan each QR code**

   The camera reads the ticket QR and instantly shows VALID (green) with attendee name and ticket type, or INVALID (red) for duplicates, cancellations or fakes.

3. **Work the result**

   Admit valid tickets, and use the search box to check guests by name or ticket code when a QR will not load.

Media gallery & payments

- Media stores your event photos and videos; every event banner is filed under Event Assets automatically.
- The Payments page lists every sale with buyer, tier, quantity and settlement status.
- The Users page shows everyone who bought tickets to your events for follow-up marketing.

Client golden rules

- Publish at least two weeks ahead and share your event link on WhatsApp and Instagram.
- Keep ticket quantities honest - scanners reject duplicates instantly.
- Reply to attendee questions quickly; responsive organizers sell more tickets.

Users Guide — Discover, Book, Enjoy

Finding events you will love

free-only.

- Browse All Events on the homepage, or use the filter sidebar: category, state, price range, status and

- Upcoming Events and Nearby Events rails highlight what is coming soon and close to you.
- The search bar finds events by name, organizer, category or status as you type.
- Recently Viewed keeps your last browsed events one click away.

Booking & paying

1. **Open an event**
   Click any card to see photos, description, venue, date and ticket prices.
2. **Choose tickets**
   Select a tier (Regular, VIP or Premium) and quantity in the booking panel, then click Get Tickets.
3. **Log in or continue as guest**
   Create or sign in to your account so tickets and reminders reach you; guests can still pay but miss reminders.
4. **Pay securely**
   Checkout runs on Paystack: card, bank transfer or USSD. Your card details never touch Eventra servers.
5. **Get your ticket instantly**
   A confirmation screen and email arrive with your unique ticket code and QR pass. Find every ticket under My Tickets.

Your tickets, reminders & favorites

- Download the ticket PDF or screenshot the QR - either scans at the gate.
- With a complete profile you get email and SMS reminders before every event you booked.
- Tap the heart on any card to save it to Favorites for later.
- Cancelled by the organizer? Your ticket is voided automatically and support contacts you about refunds.

Support & Contact

Where to get help

- Help center: click Help center in the footer of any page.
- Email: attoneex@gmail.com - the envelope icon in the footer opens Gmail directly.
- Clients: message the team from your dashboard or request a callback.
- Admins: internal escalation via the Recent Activities audit trail and server logs.

Tips from the Eventra team

- Clients: publish early and promote the share link - events with photos sell best.
- Users: complete your profile so reminders reach you before every paid event.
- Admins: review payments daily during festival season.
